Report on Educational Effectiveness Assessment

Date: December 2, 2011

Certificate or Degree Program: BA / BS in Psychology

Mission and Goals: The focus of the psychology department is to provide breadth and depth in the science and profession of psychology with a commitment to honoring diversity and promoting human welfare. The curriculum develops cross-cultural knowledge, critical thinking, imagination, creativity, ethical principles, concern for social justice, as well as respect for and knowledge of diverse perspectives that include feminist, multicultural, indigenous, gay and lesbian. In addition to active engagement in the classroom, students participate in research and community service. Our programs in psychology facilitate an understanding of the human experience as the

Report on Educational Effectiveness Assessment

(3) Students will display proficiency in basic technical writing skills.

Psychology majors will complete assignments that require technical writing skills, including:

- a. Thought development
- b. Clarity (grammar, essay structure, sentence structure)
- c. APA Style

Instructors of courses addressing any of the three areas will prepare a summary of

Department faculty will determine at close of the prior semester which course(s) will address this outcome during the next semester.

Instructor will gather proficiency scores for the identified area(s) and forward summary sheet to the administrative assistant.

Seniors will complete an exit survey that includes a self-evaluation of the skills gained.
