GERC met on 12/2/11 and began reviewing models for General Education/ Core requirements that committee members had prepared. We have four models to look at, all Core/Gen Ed hybrids to varying degrees. We had a productive review of one of the models, discussing the challenges of fitting the new objectives and outcomes into a fairly constricting Board of Regents policy. Our plan for the next meeting is to look at the other three models that we have, and then to start the spring with a clearer idea of the form that we would like our curriculum to take.

3. CHANGES IN 'I' POLICY.... Change form, not requirements !?!
